Tagorama

In this case, the title link will go directly to the attached file as it does currently on a site.

Filename/attachment link goes directly to the file

### Page Content Case: when a page has more than one attachment

[This is the page title](#)

Description of what this thing is goes here. Decide how much we show...

[4 associated files](#) ▶

Tagorama

Tagorama

Here, the link goes to the page since the CMS creates an actual page when 2 or more files are attached.

Expands same as library to show list of attached files

Toggle text is a link  
but is not  
underlined.

Blue for link  
indication,  
magnitude and  
toggle. Touching/  
clicking opens full  
display – toggle  
back to close

### Full display
